

## Wedding Music

HG Entertainments will discuss your music requirements along with any special requests that you may have prior to your wedding day.

With full evening and full day packages we will arrange a free consultation with each couple prior to their wedding day to prearrange a play list, sound system and appropriate lighting for their wedding reception, and to discuss any requests and formalities that need to be carried out by the DJ on the evening.

Punctuality is an ultimate necessity, as professional business people our representatives will arrive in plenty of time for your special event.

When choosing your Wedding DJ make sure that you look beyond the sales talk on Music selection and state of the art sound and lighting, these are a basic requirement for any professional DJ.

What really matters is how the DJ will perform on the night, will the DJ have the experience to select the music and play in the correct order, will the DJ have the MC skills to create the perfect party and fun atmosphere....HG Entertainments use a very select team of Djs with a proven track record providing wedding entertainment.

At HG Entertainments we also only use laptops for music selection insuring that our Djs carry in excess of 30,000 songs. In most cases we have mobile broadband connected so if one of your guests does actually request a song we don't have then we can normally download it there and then and have it played within 10 minutes.

We have 3 wedding packages (see the website for info)

Video DJ technology is fast becoming the new way to enjoy your favourite songs.

Recording companies spend millions of Euro on producing the best visuals for a song possible with the aid of state of the art techniques, so why when it comes to your party do we settle for listening to the music from a DJ when you can have the video as well.

We at HG Entertainments are at the forefront of VJ and the best news is that there absolutely no extra cost for this.

All we need is the ability to connect into any plasma/lcd screen in the venue and it's there. We carry in excess of 500 videos dating from the 60's to recent chart music. This list is updated every week.

When using Video technology we also offer customers the chance to text the number on the screen for requests.

We also offer the customer the chance to add ringtones to their phone free of charge with well over 30,000 tones to choose from.

### A Few Testimonials from past clients.

"Hugh had worked for us for the last 2 years and has been very professional. He is just fantastic with the kids that come into the shopping centre. We would recommend him to anyone looking for entertainment". - Yvonne, Manager City Square shopping centre, Waterford

Really professional for a DJ , worked great with the crowd".  
Joe Dolan, Jurys Hotel, Waterford, before and after his gig.

"Fantastic all round entertainer, have worked with Hugh loads of times and a really nice guy to boot."Chris Doran, Eurovision representative.

"Great DJ, had a brilliant night, best DJ in the world ha ha "  
John O'Shea, Man United Defender - His 21st in Crokers, Waterford.

"Mad Scotsman, had a fantastic night, thanks to Hugh"  
Ray Darcy - Ormand Hotel, Kilkenny, Today FM Christmas Party

## Karaoke/Cabaret

Mention the word "karaoke" and it conjures up an image of bad singers in a smokie bar.

Well at HG Entertainments we have a pleasant surprise, we only supply karaoke operators who can actually sing. So if the party is a bit slow at getting going our entertainer

will take over until everyone gets in the mood.

All our karaoke jocks use laptop, LCD technology with access to over 20,000 tracks.

You will be simply amazed at how quick we can find your favourite track and you are off and singing along. (Around 4 seconds).

All our karaoke jocks also have a full DJ package which they can access instantly so if your customers decide they want to hear the real thing this can be

done in a few seconds.

We also supply home karaoke hire. This package is a favourite for house parties. Usually after everyone has been down the local for a few, they head back to the house and sing a few songs. The rig is set up at whatever time the client requires, making sure that the operator on the night knows exactly what they are doing before we leave the house.

For those interested in buying karaoke discs we have the ultimate collection. With over 20,000 songs to choose from, we are sure that we have something for everyone. Including all the songs from High School Musical for the kids to Garth Brooks for dad and of course Abba for mum. We have special price packages to suit every pocket. Please contact office for more details.
